SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rules of the Dominion in Manitoba, Saskatchewan, Alberta, the Yukon Territory, the Northwest Territories and British Columbia, may be leased for a term of twenty years at an annual rental of \$1 per acre. Not more than 1,500 acres will be leased to one applicant.

Application for a lease must be made to the Agent or Sub-Agent of the district in which the lands are to be leased.

In leased territory the land must be developed by the lessee, or by the Dominion, within a specified period, and in unleased territory the land must be developed by the lessee, or by the Dominion, within a specified period.

Each application must be accompanied by a fee of \$10, which will be refunded if the rights applied for are not available for lease. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

Every Lessee of coal mining rights which are not being operated shall furnish the district Agent of Dominion Lands with a sworn statement to that effect at least once in each year.

The lessee will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information, application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any unclaimed section of Dominion Lands in Manitoba, Saskatchewan, Alberta, the Yukon Territory, the Northwest Territories and British Columbia, may be leased for a term of twenty years at an annual rental of \$1 per acre. Not more than 1,500 acres will be leased to one applicant.

Application for a lease must be made to the Agent or Sub-Agent of the district in which the lands are to be leased.

In leased territory the land must be developed by the lessee, or by the Dominion, within a specified period, and in unleased territory the land must be developed by the lessee, or by the Dominion, within a specified period.

NEW RAILROAD IS ASSURED

GRAND TRUNK PACIFIC ASKS FOR CHARTER THROUGH THE PASS.

MUCH RAILROAD TALK

Vancouver Dispatch Tells of Hot Struggle for the Pass. The dispatch reads: Grand Trunk Pacific Line to open Vancouver-Edmonton line.

It is now practically assured The Pass will have at least one more railroad whether the much talked of Great Northern line is built this way or not. A dispatch from Edmonton states that the Alberta and South-western Railway, an adjunct of the Grand Trunk Pacific, which is asking for a charter, will build through The Pass. The dispatch reads: The route of the Alberta and South-western Railway was definitely announced today when the bill was brought in for the incorporation of the company. D'Arcy Tate and others are named as incorporators.

The line will run from a point on the line of the proposed T. P. branch line between Calgary and Lethbridge in a northeasterly direction from Macleod, thence to or near Macleod and westerly from a point at or near Macleod to the vicinity of Pinecher Creek, then westerly to the western boundary of the province. The proposed line keeps a little north of the Crown Nest branch of the C. P. R. from Macleod to Pinecher and then crosses the C. P. R. and runs through The Pass, keeping to the south of the C. P. R. running almost parallel.

After a 10 years struggle the socialists among the membership of the United Mine Workers of America have at last obtained the balance of power in the national convention now in session here.

It is estimated that 500 out of the 800 delegates are either active socialists or have agreed to support members of socialist tendencies in the convention.

A resolution for the public ownership of public utilities was adopted by the convention without a dissenting vote. President Lewis finds a rival for his office in John Walker, of Illinois, who is a professed socialist.

Mr. Lewis and his supporters, the conservative party in the convention on the eve of reaction strike, that threatened their regime, seem to have decided that it now would be "bad politics" to antagonize such a strong influence as the socialists now wield.

The conservatives and the socialists have united in defeating resolutions recommending the organization of an independent labor party.

A resolution protesting to Congress against repealing the tariff on coal was defeated by the convention. The delegates from the northwest wanted the resolution passed, declaring the tariff against them local protection. A resolution was adopted advocating woman's suffrage.

SCHOOL OF AGRICULTURE

The department of agriculture has been authorized to conduct a two-weeks short course in agriculture at Lacombe, from the 1st to the 15th of March. The course is intended for farmers and farmer's sons.

A competent corps of lecturers will be in attendance for the two weeks, and the following subjects will be taken up:

Live Stock—Judging, history of breeds, stock breeding, feeding, care and management, etc.

General Agriculture—crops, grain judging, soil cultivation and studies in weeds.

Dairying—poultry, forestry, veterinary work and horticulture.

In order that the various sections of the province may be benefited alike, the agricultural societies and exhibition associations have been asked to nominate two men each from their districts to attend this course. Although only two men are to be appointed by each association, it does not mean that others will not be welcome. The course is entirely free and all those interested in the work are requested to attend.

The department is anxious to gain accurate information as to the number that will attend in order to secure, if possible, a rate from the railway. Any person wishing to take the course should communicate with the department requesting the matter.

MINERS WORKERS IN CONVENTION

The district convention of the United Mine Workers of America convened at Lethbridge yesterday.

One of the important matters to be considered is the question of the affiliation of the Western Federation of Miners and the United Mine Workers.

Chas. Bunting represents the former at the meeting.

It is also understood the convention will discuss the matter of a strike at Hillcrest. The circumstances connected with the election of the secretary of the District Mine Workers is understood will be brought to the attention of the convention.

LOST IN BIG EARTHQUAKE

Quite a number of friends and kindred of members of the Italian colony of The Pass were lost in the great earthquake and tidal wave by which southern Italy and Sicily were devastated in the latter part of December.

Joe Olivia of Frank whose former home was near Reggio, Frank Alampi and S. Benedetto are among those who suffered such losses. Mr. Olivia received Tuesday the first letters to come from his people since the disaster.

"They informed him that his parents and brother escaped but his brother's wife and baby were killed, buried beneath the home and it had as yet been impossible to find the remains."

Frank Alampi received the sad information that his father and mother and a brother in law were all lost.

S. Benedetto, formerly porter at the Imperial, lost a sister.

SOCIALISTS CONTROL U.M.W.A.

A news despatch from Indianapolis where the international convention of the United Mine Workers of America is in session has the following which will be of interest in this district:

After a 10 years struggle the socialists among the membership of the United Mine Workers of America have at last obtained the balance of power in the national convention now in session here.

It is estimated that 500 out of the 800 delegates are either active socialists or have agreed to support members of socialist tendencies in the convention.

A resolution for the public ownership of public utilities was adopted by the convention without a dissenting vote. President Lewis finds a rival for his office in John Walker, of Illinois, who is a professed socialist.

Mr. Lewis and his supporters, the conservative party in the convention on the eve of reaction strike, that threatened their regime, seem to have decided that it now would be "bad politics" to antagonize such a strong influence as the socialists now wield.

The conservatives and the socialists have united in defeating resolutions recommending the organization of an independent labor party.

A resolution protesting to Congress against repealing the tariff on coal was defeated by the convention. The delegates from the northwest wanted the resolution passed, declaring the tariff against them local protection. A resolution was adopted advocating woman's suffrage.

SCHOOL OF AGRICULTURE

The department of agriculture has been authorized to conduct a two-weeks short course in agriculture at Lacombe, from the 1st to the 15th of March. The course is intended for farmers and farmer's sons.

The department is anxious to gain accurate information as to the number that will attend in order to secure, if possible, a rate from the railway. Any person wishing to take the course should communicate with the department requesting the matter.

CARBON HILL BIG PROPERTY

ACCORDING TO PROSPECTUS OF COMPANY RECENTLY ISSUED.

TONNAGE IS FABULOUS

Claim Nearly 250,000,000 Tons of C. A. Can be Mined With Greatly Reduced Capital—Stock Now on Market.

The Carbon Hill Coal & Coke company which during the past year began the preliminary work of developing a coal property on the South Fork, has recently issued a prospectus for the information of prospective investors which describes the Carbon Hill property as one of the greatest that has been speed in this portion of the world.

It is stated that the property consists of four sections of coal land embracing 2560 acres, all coal bearing land. The number of seams is given as eleven, ranging from seven to twenty-two feet in thickness. On the basis of the figures of the engineer who reported on the property, it is estimated that there is approximately 272,000,000 tons of coal on the property but allowing fifty per cent for miscalculation for one reason or another, it is figured that as an extremely conservative estimate there is 136,000,000 tons of merchantable coal that may be mined, all of which may be handled by gravity haulage, thus insuring that the coal may be mined at a minimum of expense.

It is stated that the company has a charter for a railroad to connect the property with the Great Northern line at or near Burnia and also for a continuation of the line to connect with the Spokane International on the west and the Great Northern on the east.

The prospectus contains a large number of illustrations made from photographs, showing the coal at the faces of the various cuts, and a working 500 feet. Work was discontinued in December owing to the difficulties encountered incident to severe weather. It is expected work will be resumed early in the spring and it is among the plans to begin the construction of the railroad.

There is said to be good prospect of much activity on the South Fork this summer.

According to the prospectus the company is incorporated for \$2,000,000 with \$500,000 of preferred stock and the balance common, shares being of a par value of \$1 each. The headquarters of the company is at Spokane.

During the past year the company made openings on several of the seams and drove a tunnel as far as the working 500 feet. Work was discontinued in December owing to the difficulties encountered incident to severe weather. It is expected work will be resumed early in the spring and it is among the plans to begin the construction of the railroad.

There is said to be good prospect of much activity on the South Fork this summer.

SHOULD OPPOSE DIVISION.

Once again referring to the subject of redistribution THE FRANK PAPER would urge upon the property owners of The Pass the wisdom of opposing any more to divide the Pincher Creek constituency. The bill for the redistribution is now in the house but is as yet incomplete, only two constituencies being affected by its provisions as yet. These are the cities of Edmonton and Calgary. The measure is now in the hands of a committee which is to formulate the rest of the proposed redistribution and the bill will no doubt be reported at an early date. Therefore, if anything is to be done it will have to be done promptly.

As to the question as to what can be done, we have already suggested that if it is deemed necessary that there should be greater representation in this section, that the constituency be left as it stands and two members at large granted. That would achieve the same end as regards representation and still give the people who own property a voice in the selection of a member.

When THE FRANK PAPER first made this suggestion we heard it said that there was no precedent for such a thing but the introduction of the bill by the attorney general supplied that precedent. According to the provisions of the bill as introduced, Edmonton and Calgary are each to be given two members and there is to be no division of either constituency, the two members to be elected in each constituency, to be members at large as we have proposed for this riding. If it can be done in one constituency it can be done in another and it could not be construed as any form of gerrymandering either since it would be so manifestly in the interest of all the people.

We believe that if a delegation composed of a representative citizen from each of the various towns of the district were to be sent to Edmonton it would not be a difficult matter to convince the government of the justice of such a petition and that it would be granted.

We are aware that there is talk of running an independent candidate and endeavoring to unite liberals and conservatives upon him in the event the riding is divided and many seem to think such a consummation can be successfully effected but we are skeptical and as yet believe strongly improbable that an independent candidate could succeed; certainly there is a strong doubt and we believe that no division, with two members would be infinitely preferable as most likely to insure the owners of property at least one representative in the house.

McKENZIE DOING GOOD WORK.

Malcolm McKenzie, M. P. P. of Macleod, who is one of the quietest but most forceful workers in the legislature, is taking a strong stand upon the government railway policy. In his speech in the debate upon the address in reply to the speech from the throne, Mr. McKenzie dwelt most effectively upon the great need there is in southern Alberta for increased transportation facilities.

He had been travelling through the southern portions of the province for the past two or three months, he said, personally gathering accurate data about the need of more railways and the serious handicap which the lack of them now places upon the residents of the south. He cited instances where where farmers were unable to have their grain transported so that they could keep their crops to deliver, and a few other instances where men discouraged by the lack of transportation facilities threatened to pull up stakes and go elsewhere.

Mr. McKenzie also emphasized the manner in which the coal industry of the south is stifled for lack of sufficient freight accommodation of existing railway systems. The coal beds there were among the richest in the world, but the output was as yet only from 4000 to 5000 tons daily. This would speedily be doubled if more railroads were put in there and more cars furnished the operators.

The member for Macleod is consistent in his entire work concerning railways. He has for several years kept close tab upon the transportation systems of the west, their operations and plans, and was in fact the first man to suggest the railway tax upon the C. P. R. in Alberta—a tax by which this wealthy corporation pays into the revenue of Alberta over \$60,000 yearly.

During the recent visit to Edmonton of D'Arcy Tate, solicitor for the Grand Trunk Pacific, Mr. McKenzie had a lengthy interview with him, impressing upon Mr. Tate the claims of the south country for a branch line of the G. T. P. from Saskatoon to Macleod.

ROBERTSON GETS TANGLED.

Leader Robertson of the opposition got tangled in the law the other day at Edmonton. There have been passed altogether by the first parliament something like a hundred and eighty bills. Nothing was said of a hundred and eighty miles of these by the leader in his review of the legislation enacted, but the other one, the Employer's Compensation Act he picked out for the "horrible example." Although he admitted this to be a good law and acknowledged that the attorney general did a good thing when he introduced it yet it was deserving of the censure of the great sponsor. "A man working on a building may fall and break a leg," he cried, "and yet unless he falls thirty feet he cannot recover damages. Now I submit that this is ridiculous. What does it matter whether he falls three feet or three hundred so long as he is hurt?"

"You're wrong," interrupted the attorney general. "There is no such clause in the act. You are thinking of the provision that has to do with the employer's injury while working in the cellar of a thirty foot building."

"Well maybe I'm wrong," returned the leader. "But I know there's something in the act about thirty feet." Whereupon the house opened its mouth and laughed and the leader proceeded to tell how, if we had our own school land and could sell it at 21 per acre and put the amount at interest at 8 per cent, the income annually would be \$12,000,000 a remark indicating that the value of the school lands of Alberta is about four hundred million dollars.

The Lethbridge Herald makes an excellent suggestion with regard to securing government assistance for more railroads in the south. It suggests that all boards of trade send delegations to Edmonton to urge construction in the south. We believe it would be a splendid thing to do. With the government in the humor to help railroad building, the actions that make the strongest demands will be the first to be considered. If there is anything in this theory it would be well for the boards of this district to get busy.

Kootenay and Alberta Railway Company

NOTICE is hereby given that an APPLICATION will be made at the next Session of the Legislature of the Province of Alberta FOR AN ACT TO INCORPORATE A RAILWAY COMPANY to be called "The Kootenay and Alberta Railway Company," with power to construct and operate the following lines of railway:

1. To begin at a point at or near Cowley, Alberta, going south westerly through the valley known as Beaver Valley and thence west to the North Kootenay Pass in the Rocky Mountains.
2. To begin at a point at or near Cowley, Alberta, going south easterly through Pincher Creek Town, the settlement of Pincher, Cardston and thence easterly to a point at or near Coote on the International Boundary Line between Canada and the United States.

AND to make agreements with other railway companies for amalgamation and otherwise, with such other necessary and usual powers, rights and privileges.

DATED at Edmonton this 7th day of January, 1909.

RIGHT AFTER RAILROADS

(Special Correspondence The Frank Paper.)
Edmonton Feb. 8.—That the Grand Trunk men to get busy on branch lines immediately, was manifest in the house during the week by the presentation of a petition introduced by Mr. MacKenzie from D'Arcy Tate and others, to be incorporated as the Alberta Southwest Railway Co. Much secrecy is being observed, but it is said on good authority that the new line will run from Calgary through the Crow's Nest to the coast, or failing this from some point between Calgary and Coats through the Crow's Nest.

Mr. Marcellus, of Pincher Creek, presented the petition for incorporation of the Southwest Alberta Railway Co. This line will run from Pincher Creek through the Blood Indian Reserve to Mountain View and then into Montana. Ramor also says that D'Arcy Tate's road will be the same route and that both organizations cannot be granted a charter. Pincher Creek parties are behind the second line.

Railways for southern Alberta is the paramount question in the legislature and is more manifest daily. A delegation of six from Lethbridge, headed by Ex-Mayor Galbraith waited on Premier Rutherford deploring conditions at present prevailing in Southern Alberta through lack of railway facilities.

Attorney-General Cross, has introduced his redistribution bill in the legislature. The bill instead of splitting Calgary and Edmonton into two constituencies as was expected, merely provides two representatives for each place, which means that they must be voted on by the entire electorate of each city. Further than stating that there will be two members each for Edmonton and Calgary the bill gives no information as to number of new constituencies or boundaries of such. These are to be drafted by the committee of the house.

The introduction of an election bill providing for holding of an election next summer will follow the passing of the redistribution bill.

Frank News in Brief

Alex Goyette, dealer in furniture and wall paper.

The roof of the boiler house at the tipple caught fire from the stack Thursday evening last. The fire was extinguished with no loss.

The Frank store of the Western Mercantile company was closed Saturday last and such of the stock as had not been sold off was moved to Blaine.

E. A. Elton, formerly a resident of the Pioneer district but now of Calgary visited Frank Saturday and Sunday, renewing many old acquaintances.

Quite a number of Frank people drove to Coleman Monday evening to take in the Fox entertainment. They were much pleased with the program.

A number of young men of Bellevue had an unpleasant runaway experience Friday evening last. While driving to Frank with a team from the Blairmore river, the sleigh tipped over and the team ran away. Three of the occupants of the rig including the driver were quite severely bruised up. The sleigh was ruined.

There continues to be considerable talk at Lundbreck of an amalgamation of the Breckenridge & Lund company and the Fairbairn company. Meetings of the directors of both companies were held on the 25th but nothing has been announced as yet. It is said that if the move to amalgamate fails the Breckenridge & Lund people will secure a new manager and resume operations.

NOTICE

Notice is hereby given that in accordance with the provisions of the Irrigation Act the International Coal & Coke Company, Limited, have filed the memorial and plans required by Sections 12 and 15 of the said Act, with the Commissioner of Irrigation, at Calgary, Alta. The memorial and plans apply for the right to divert Twelve (12) cubic feet of water per second from McGillivray Creek on the North-east quarter of Section Seven (7), Township Eight (8), Range Four (4), West of the Fifth Meridian, for industrial purposes and other necessary work as shown by the memorial and plans filed to enable the water so diverted to be used for the said industrial and other purposes at Coleman, Alberta.

INTERNATIONAL COAL & COKE CO., LTD., Applicant.

NOTICE

Notice is hereby given that in accordance with the provisions of the Irrigation Act the International Coal & Coke Company, Limited, have filed the memorial and plans required by Sections 12 and 15 of the said Act, with the Commissioner of Irrigation, at Calgary, Alta. The memorial and plans apply for the right to divert Ten (10) cubic feet of water per second from McGillivray Creek on the North-east quarter of Section Seven (7), Township Eight (8), Range Four (4), West of the Fifth Meridian, for industrial purposes and other necessary work as shown by the memorial and plans filed to enable the water so diverted to be used for the said industrial purposes at Coleman, Alberta.

INTERNATIONAL COAL & COKE CO., LTD., Applicant.

Attorney Colin McLeod was a visitor from Macleod Sunday.

MATERNITY—Quiet comfortable home for expectant mothers. Doctor in attendance. Mrs. Kidd, 27 Front st., Frank.

The jury in the Laird-Scott libel case at Regina, growing out of the hot provincial campaign last fall, disagreed and it is now stated that the case will not be retried and that the libel cases growing out of the same matter will be discontinued.

Invitations are out for a ball to be given by the gentlemen of Blairmore at School Hall, Frank tomorrow evening.

A news dispatch from Indianapolis indicates that President Lewis of the United Mine Workers has probably been re-elected by a large majority.

The saw mill recently installed by the coal company was started up Monday and is in successful operation. The mill has a capacity of 80,000 feet a day.

A news dispatch from Edmonton states there is a likelihood of the provincial election being called for April, about a month after the legislature adjourns. The announcement is not official however.

The Canadian-American company has completed unloading the two new 250 horse power boilers intended for power at the shaft and the work of installing them will begin at once.

The Frank Paper was in error last week in stating that the Canadian American company was bringing a man from France to replace former Pitt Boss Chestnut. Joseph Emerson has been appointed to the position.

Justice of the Peace T. M. McLean of Hillcrest was called in Tuesday to hear a case in which Justice Martin was the complainant against J. J. Thomas for keeping a vicious dog. The owner was ordered to keep the animal confined.

HEALTH Without MEDICINE

HEALTH CAN BE SAVED BY THIS NEW METHOD

Hercules Sandoz

It applies to all cases no matter what the form of disease may be. The human body is revitalized by oxygen from the air. No one can apply Oxydonor rightly without benefit. No one is now incurable in any form of disease until the prime conditions of life are lost by the irreparable destruction of some vital organ. Organization of the whole organism through the use of Oxydonor touches and remedies all difficulties in any diseased condition as long as it is applied early enough. It has brought health and happiness to scores of miserable sufferers from Rheumatism (Goutic), Inflammation, Muscular, Nervous troubles, Bright's Disease, Catarrh, Jaundice, Indigestion, Dropsy, Lung Trouble, Kystic Liver, Kidney, Bladder and Stomach Troubles, Trachoma, Larynx, Bronchitis, Paralysis, Children's Ailments, Female Troubles, Tumors, Abscesses, etc.

Mrs. Anson Wilts, Neapolis, Alta., writes: "Received the Oxydonor and find it a source of great relief, although I have had it hardly a month. The first night I slept and rested better than for weeks and my bowels have moved regularly every morning while I used the Oxydonor during the night."

My general health is greatly improved. For years I have been compelled to take a physic every day and been subject to severe headaches and nervousness, but find them all disappearing and how thankful I am. My children say I look ten years younger, and I was just sixty-nine years old the 5th of May."

Head Office: Coleman, Alta.

Will occupy this space with an important announcement in the near future.

Watch For It

Canadian-American

Coal & Coke Co., Limited

Frank

Alberta

Miners and Shippers of Bituminous coal.

The Company carries three grades of coal, screened, mine run and slack. The screened is unequalled for domestic or furnace use. We recommend the mine run and slack for steam purposes, and can guarantee it to be clean and give absolute satisfaction.
